

Arlo Midtown

3D Printed Check-In Pod

Bar Vignette

Rooted in the raw, dynamic energy of Midtown Manhattan, this hotel design embodies a transformative journey—where the grit of urban life meets the glamour of polished refinement. Inspired by the garnet, a gem forged deep within the earth, the spaces celebrate the beauty of evolution. Through custom reflective check-in pods that change appearance as you walk by, geometric flooring and elevator door design, and mirrored ceilings in guest rooms that reflect the velvet upholstery and textured wall coverings throughout the hotel, uncut edges give way to faceted brilliance, creating an atmosphere that is both grounded and radiant. Guests are immersed in a multi-dimensional experience, reflecting the duality of the city itself—authentic yet aspirational, raw yet luxurious, a true reflection of transformation.
